Is the
freezer
glass door
panel
clear
enough
for the next
customer?

SilShield®

SilShield® Anti-Fog Film W-6016

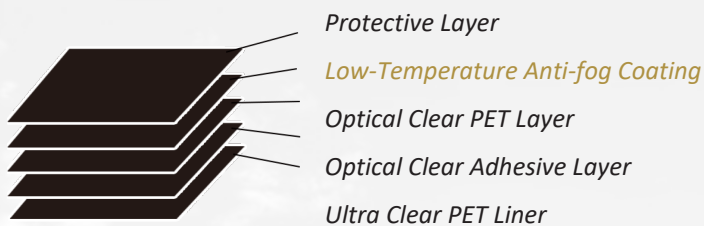

Exceptional low-temperature anti-fog coating formula

Born for Commercial Freezer Display

Applications: Commercial Freezer Display Cases

Brand	Part #	Description	Thickness	Features
SilShield®	W-6016	Durable, fog-resistant coated polyester film with an adhesive layer, offering improved fog control. Available in customized dimensions and specifically engineered for mounting on the interior surface of freezer doors. When the freezer's door is opened, the film's coating maintains clarity without condensation over extended periods.	2mil 4mil	<ul style="list-style-type: none"> - Ultra-high transmittance - Improved anti-fog efficacy tailored for freezer doors (25°C/65% RH room condition) - Extended durability - Scratch-resistant under normal conditions

Together, we make it clear and comfortable
